

San Benito County Public Health Services

COVID-19 UPDATE: NOVEMBER 2, 2022

Epidemiologic Week 44: 10/30/2022 - 11/5/2022

This report is based on only available data; not all results have been received.

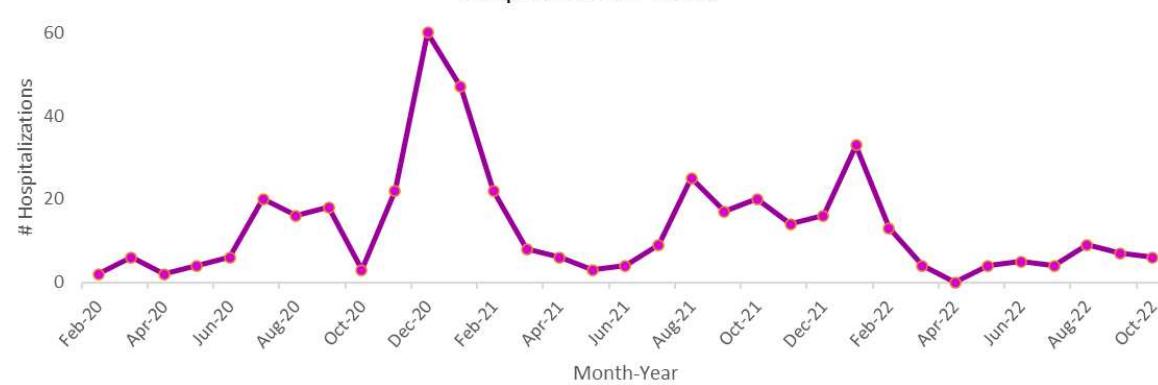

COVID-19 Snapshot

Total Cases	Active	Recovered	Deaths
16,431	15	16,308	108
Hospitalizations		Primary Dose Completed	Booster Dose Received
436	44,868 (73%)	24,607 (40%)	

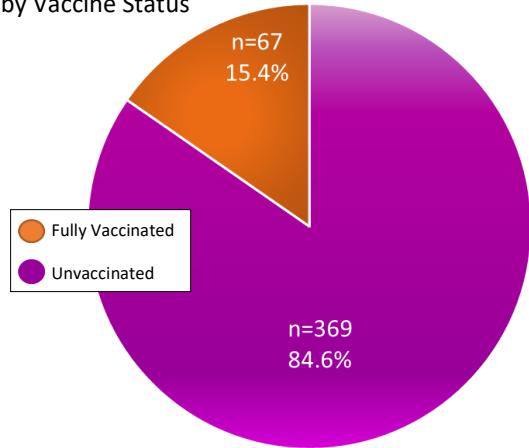

San Benito County Public Health Services continues to work with medical providers to identify and test individuals who meet criteria for COVID-19 testing. There have been 34 new cases reported since October 26 for a total of 16,431 confirmed cases of COVID-19 in SBC. Confirmed cases include patients who have since recovered and those who are deceased. Fifty-three percent (8,743 of positive cases reported) were female; ages ranged from 1 day to 101 years (median: 36 years). All results included in this update are current to November 2, 2022 at 2:00PM.

Variants

- B.1.1.7 (Alpha)** variants are associated with approximately 50% increased transmission, and likely with increased disease severity and risk of death. Appears to have minimal impact on the effectiveness of treatments with antibodies.
- B.1.351 (Beta)** variants are associated with approximately 50% increased transmission. May have moderately decreased response to antibody treatments.
- B.1.427 and B.1.429 (Epsilon)** are associated with approximately 20% increased transmission. There is significantly reduced efficacy of some antibody treatments.
- B.1.526 (Iota)** is associated with significantly reduced efficacy of some antibody treatments.
- P.1 (Gamma)** variants may have moderately decreased response to some antibody treatments.
- B.1.617.2 (Delta)** variants are associated with approximately 200% increased transmission. May have moderately decreased response to antibody treatments (Delta totals include all Delta AY sublineages).
- B.1.1.529 (Omicron)** variants are associated with increased transmission. San Benito County reported its first case of the Omicron variant on December 8, 2021 (Omicron totals include all BA sublineages).

Variants Identified in SBC

Variant	# Cases
B.1.1.7	26
B.1.351	3
B.1.427/B.1.429	288
B.1.526	7
P.1	8
B.1.617.2	551
B.1.1.529	568

Cases by City/Zip Code and County

County	Cases	Population	Rate *
San Benito	16,431	64,022	7.1
Santa Clara	438,304	1,967,585	7.9
Santa Cruz	64,157	270,861	14.7
Monterey	95,834	448,732	3.5
Merced	72,606	288,420	6.1

*County rate is a rolling 7-day average and per 100K population.
